ATHENS, Aug. 16.—Rebel guerrilla forces proclaimed establishment of a "free government" in Greece today, disowning King Paul and the legally constituted regime of Premier Demetrius Maximos.

The rebel announcement was made over a clandestine radio by General Markos, commander-in-chief of the guerrilla forces that for months have been engaged in combat with government troops in northern Greece.

Expected to be announced by the Greek government officials in Athens and the United Nations in Lake Success, he pointed out that the main purpose of Gen. Markos' activities has been to gain a foothold in the north.

When this was achieved, he was expected to announce formation of a so-called "Republican" government, which would be recognized by Soviet Russia in place of the present royal regime in Athens.

Gen. Markos' broadcast, anticipated by the government for many weeks, said that he had established a "constitutional charter for a free Greece," taking into consideration the necessity for organization of popular sovereignty in the liberated areas.

He said: "All the powers derive from the people, for the people and are exercised through the people."

King Is 'Dethroned'

According to Markos, the kingdom of Greece, which he described as the "Glücksburg royal dynasty," has been abolished, and King Paul is considered dethroned.

SANTA ANA, Calif., Aug. 16.—(INS)—Attorneys for Helmut Busch, Louis O'Connell and George R. Gollum, who are charged with the murder of the Greek royal couple, today recessed their defense in the trial of the Greek royal couple.

The defense takes over next week after the prosecution case is ended with the reading of the last of the lurid Japanese love letters exchanged by the young defendants.

The flaming correspondence, unprintable in many passages, was placed in evidence to support the state's claim that the slayings of Elizabeth and Prince Philip were premeditated.

Chrysler Raises All Car Prices

Passenger Cars Up An Average Of \$87, Trucks Advance Average Of \$65

DETROIT, Aug. 16.—(INS)—The Chrysler Corporation today announced that it had raised prices of its passenger cars and trucks.

Passenger cars will go up by \$45 to \$145, an average of \$87, and trucks by \$35 to \$100, an average of \$65.

The company blamed the new prices on increased material and labor costs which have accumulated since December 1945.

"On Tuesday, the corporation announced that net profits for the first six months of 1947 were the highest in the company's history."

The six-month period brought the company \$39,122,457 from the sale of 460,252 passenger cars, trucks and other commercial vehicles.

Company President K. T. Keller reported the corporation's net working capital was \$199,609,788, an increase of \$12,311,793 since December 31.

Earnings for the first half of 1947 were \$4,985,392.

Chrysler announced the price increases became effective as of August 18, 1947.

Increases on the automobile price scale range from \$75 to \$130.

The Chrysler Corporation was the second automobile concern within a week to reveal price boosts. The Kaiser-Frazer Corporation marked up its models by \$89 on Wednesday.

General Motors, Hudson and Packard led the parade of price increases announced within the last two weeks.

WASHINGTON, Aug. 16.—The
National Association of Manufac-

early next year.

NAM President Earl Bunting
warned that "present high income
tax rates are driving up the sources
of venture capital and threatening
the unprecedented prosperity which
beckons the nation."

In a nation-wide broadcast
over the NBC, Bunting outlined an
extensive NAM tax program calling
for drastic revision of present tax
laws. The program recommends:

Liberalize Deductions
1. Liberalization of allowable de-

and medical expenses.

2. A 12 per cent minimum on
taxable incomes up to \$2,000 as
compared to the present rate of 19
per cent.

3. A maximum tax of 50 per cent
on personal incomes of more than
\$100,000 a year.

Bunting urged that "moderate"
payments for life insurance be made
deductible in computing individual
income taxes and that the "presen-
restriction" on medical expenses be
eliminated from tax laws.

Declaring that income taxes
should "today—more than two years
after the end of the war," Bunting
said that "it is up to our govern-
ment in Washington to see that tax
rates can be lowered."

The NAM president asserted that
"investment capital accumulated to-
day is the seed corn of tomorrow's
jobs and tomorrow's higher living
standards for all."

Chrysler Raises All Car Prices

Passenger Cars Up An Ave-
rage Of \$87, Trucks Ad-
vance Average Of \$65

DETROIT, Aug. 16.—(INS)—The
Chrysler Corporation today an-
nounced factory retail prices of Ply-
mouth, Dodge, DeSoto and Chrysler
passenger cars were increased an
average of \$87.00.

Dodge trucks will go up by \$45 to
\$143, an average of \$65.

The company blamed the new
boost on increased material and
labor costs which have accumulated
since December 1946.

On Tuesday, the corporation an-
nounced that net profits for the first
six months of 1947 were the high-
est half year earnings in the com-
pany's history.

The six-month period brought the
company \$36,122,457 from the sale
of 460,252 passenger cars, trucks
and other commercial vehicles.

(Company President K. T. Keller
reported the corporation's net work-
ing capital was \$199,609,788, an in-
crease of \$12,311,733 since December
31.)

Earnings for the first half of
1946 were \$4,065,382.

Chrysler announced the price in-
creases become effective as of
August 18, 1947.

Increases on the automobile price
tags range from \$75 to \$130.

The Chrysler Corporation was the
second automotive concern within a
week to reveal price boosts.

The Kaiser-Frazer Corporation marked
up its models by \$99 on Wednesday.
General Motors, Hudson and Pack-
ard led the parade of price increases
announced within the last two
weeks.

Explosion Seals Doom Of Whitehaven Miners, Abandon Hope For All

Disaster Second Worst In British Mine History—Mine Is
135 Years Old—Runs Under The Sea—Rescuers Work
Heroically To Cut Through Rock Rubble—Wives And
Sweethearts Gather At Pit Mouth—Gas Filled Pits
Make Rescue Work Dangerous.

WHITEHAVEN, England, Aug. 16.—(INS)—Mine
officials all but abandoned hope today of finding any
survivors of the William mine disaster as rescue work-
ers digging through mountainous rubble located the
bodies of 54 victims.

One mine official estimated that the death toll would
rise to 117 after rescuers had found the bodies of all the
miners trapped beneath almost 100 yards of rock.

Rescue workers, using special breathing equipment
in the gas-filled atmosphere miles deep in the 135-year-
old mine, were finding bodies in groups of twos and threes.

Working unceasingly in relays since the explosion
last night, they had cut through 150 yards of rock and
debris as hope dwindled for the lives of the entombed men.

Undersea Colliery
Rescuers relieved temporarily from
their dogged work miles deep in
the Williams mine, oldest undersea
colliery in Britain, said:

"It's hard going. We don't think
there is any chance of getting the
men out alive."

Wives and sweethearts sobbed as
the pit elevator working throughout
the forenoon brought up the bodies
of 16 known dead.

An official recapitulation cor-
recting earlier figures said 121
were below the surface in the mine
jutting out under the Firth of
Solway, at the entrance to the
Irish Sea, when the explosion oc-
curred shortly before six last night.
Ten miners escaped.

Pit officials fought discourag-
ement due to the exhausting
conditions under which the rescue
teams are working and the huge hills
of rock piled up by last night's ex-
plosion.

One of the doctors at the pit head
said:
"The national coal board officials
are taking a gloomy view. They
cannot see how the men can possibly
be saved. There must be tons of rock
between the trapped men and the
shaft."

He added:
"Although the pit road is well un-
der the sea, it is hardly likely that
water has poured into the mine."

Work One Hour
After the gruelling journey to the
rock-fall laden with 40 pounds of
equipment, the rescuers were able
to work only one hour before re-
turning for a rest.

In addition, timber and other re-
scue equipment could be got to the
rock-fall only in small quantities,
piecemeal.

The first body was brought to the
surface at 7:20 a. m. it was that
of a young unidentified miner and
was carried by four grim-faced col-
liery workers on an arm stretcher covered
with an army blanket.

They marched wearily through the
silent crowd of people assembled at
the pithead to one of the three
temporary mortuaries prepared to
receive the bodies.

An official announcement of the
national coal board said ten men
had been rescued after the explo-
sion last night, leaving 92 still
trapped.

British morning newspapers indi-
cated that 40 bodies have been
located in the William mine, in the
northeast corner of England.

U. S. Officials Believe Con-

By JOHN A. REICHMANN
(U. N. S. Staff Correspondent)

WASHINGTON, Aug. 16.—Ameri-
can officials today expressed be-
lief that the proposed Japanese
peace conference may be delayed
until after January 1.

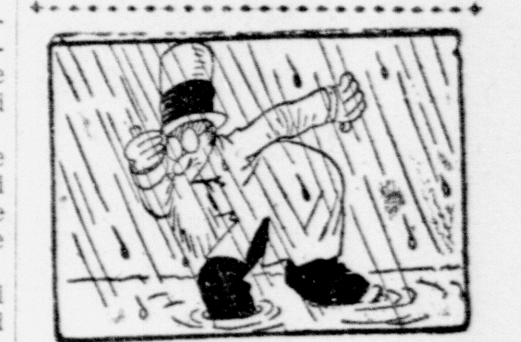

However, it was said that the
State department does not intend
to cease its efforts to hold the
meeting before the first of the
year if at all possible.

Up until two weeks ago, it had
been hoped that the meeting could
be convened early in September,
possibly just before the opening of
the United Nations General As-
sembly in New York.

Two factors are playing a part
in delaying the conference which
the United States originally had
hoped to hold on August 19. They
are:

Arraign Krupp Empire Heads At Nuernberg

Top Officials Of Munitions Dynasty Indicted For Part In German Master Plan

NUERNBERG, Aug. 15.—(INS)—Twelve key officials of the Krupp munitions dynasty were ordered into Nuernberg war crimes court today for arraignment on an indictment charging primary guilt in the German drive for world conquest.

The 30-page American indictment charged Alfred Krupp Von Bohlen und Halbach, owner and directing head, and the 11 other defendants with plundering a continent and using slave labor.

The indictment alleged that the once-powerful munitions works, which supplied German armies in three wars, began producing tanks in violation of treaties with the Allies as early as 1928.

Krupp rocket experiments, said the indictment, were first undertaken in 1930.

The Krupp empire was ruled during the Hitler regime by Gustav Krupp Von Bohlen und Halbach. He was indicted at the original war crimes trial of major Nazi leaders, but was not tried because he is near death.

His son, Alfred, is now the main defendant.

In the third Nuernberg trial of German industrialists, the Krupp directors are charged with planning and conducting an aggressive war, looting the occupied nations, exploiting foreign workers and misusing prisoners of war.

PENNSYLVANIA WEEK, TO STRESS STATE'S ADVANTAGES

(Continued from Page One)

have a stake in this state. The job you hold, the pay-check you draw, the income of your business—all depend on the prolonged prosperity of this state—and the prosperity of the commonwealth depends on more people coming to live in it, and buying Pennsylvania-made products. It's just good common sense for all of us to be loyal Pennsylvania boosters.

Outstanding State

Pennsylvania is a great state—greater, perhaps than you know. We possess more power and skilled workmen than any other state. We have more churches, more farms, more of the best hunting and fishing areas in the U. S.

The state is a mecca for tourists and a headquarters for historians for much of our American history was made here.

Join the Pennsylvania movement. Do what you can to attract new industries here. Urge desirable people to move here. Know your state and boost it.

In the past several days J. Kennedy Spafford of the Pennsylvania Department of Commerce has been in New Castle conferring with a number of citizens. He explained the mechanics of the program of Pennsylvania Week and in a short time a local committee will be appointed to take charge of the program in New Castle and Lawrence County.

2. Tardiness, and reluctance of the Soviet Union to proceed with the conference on terms proposed by the United States.

The August 19 date was abandoned almost as soon as the conference was broached because of British demands for a delay. London held that it could not have its experts in the U. S. on that date and also get them to the Canberra meeting.

The same objection persists against an early September meeting. The British Commonwealth countries maintain that any such schedule would reduce the Canberra meeting to more than a week, which they consider too brief.

UNVEIL HONOR ROLL AT WEST PITTSBURGH

(Continued from Page One)

Papa, Marshall, named the marchers, and the men in the ranks faced the honor roll with the Boy Scouts who had followed, immediately to their right.

The honor roll was headed by Rev. Charles D. Beck, pastor of the Holy Cross church, after it had been unveiled by Peter Vessella, John Papa, and Anthony Alleghro, of the West Pittsburgh Boy Scout Troop.

James Vessella, general chairman of the welcome home celebration, presented a deed to the honor roll, which has been completely paid for by Capt. Kenneth Fred, who accepted in behalf of the veterans of the community.

This was followed by the beautiful rose ceremony, a rose being placed in a white cross, erected in front of the honor roll, by members of the community, the ceremony being conducted by Capt. Vincent G. Wadlinger. As each rose was placed, the man presenting the rose saluted, and a candle was extinguished in his honor.

Those who made the supreme sacrifice and who were honored with this ceremony, were John Drake, Louie DeMaio, Harold Gansberg, Sam Kozel, John Martin, Raymond Vermino, Daniel DeGenova, Sam Caravella, Joseph Clifton, Nick Moran, and David Ponziani, eleven in all. In conclusion taps were played by the scout troop band.

Judge Lamoree was then introduced by Chairman James Vessella. Judge Lamoree giving the eulogistic address, in which he paid high tribute to the courage and devotion of those men from Taylor township, who so nobly answered their country's call, and who served through all the rigors of the great conflict.

He paid particular homage to those men who had made the supreme sacrifice and urged the audience to ever remember their courage and devotion, above and beyond the call of duty.

He also expressed the great appreciation of all of Lawrence County for the patriotic services rendered by the men and women of the community during the war, and of their devotion to all the war causes, which was probably the most outstanding of any community of its size in the state of Pennsylvania.

In concluding, he dedicated the memorial to those who gave their last full measure of devotion to carry on in their traditional American way, and to those who, through the hell of battle on land and sea, He urged his hearers to never forget the sacrifices that they had made for this great nation.

At 5 p. m., a full course dinner is to be served to the returned veterans, followed by a band concert from 6 to 10 p. m., concluding with a fireworks display at 10:30 o'clock.

GLOBAL PROBLEMS VEX, UNITED NATIONS COUNCIL CONCERNED

"right act" read to them by E. N. Van Kleffens in the council, accompanied by a declaration that his government would not consent to further intervention by the security council in Indonesia.

In rejecting the proposed commission to supervise the U. N. peace as proposed by Australia, Van Kleffens said:

"We are all for a commission or an investigation, but we hold that the security council has not the right to establish one."

The Soviet Union and Poland, eager to promote the interests of the Indonesian republic, stand in direct contrast to their attitude in the Balkan question and both are supporting measures and steps which they are opposing bitterly in the Greek issue.

Belgium has given solid ground to the Netherlands claim by "reserving" any position on the question of council competence. The U. S. has stated that if there are doubts as to the council's competence, she will abstain from a subsequent vote.

EXPECT BLOODY ARAB REPRISALS

series and murders by "Arab gangs" are preliminaries to acts of organized terror to influence the United Nations and the rest of the world.

Machine-Gun 4 Arabs

Haganah admitted that its tough gunners yesterday killed four Arabs outside a house near Tel Aviv. Eight other Arabs, including a woman and her children, were killed when the house was afterwards dynamited.

Three other Arabs were killed in scattered fighting in the Tel Aviv-Jaffa sector yesterday—the worst since the 1939 Arab uprising.

The six-day toll of Arab and Jewish casualties now stands at 30 killed and at least 73 wounded.

The possibility arose that the Palestine government may act to curb Haganah, which reportedly has more than 50 thousand men under arms.

A special government communique denied the charge of disorders as part of a "concerted plan". The communique revealed that troop units have been allocated for the support of police.

Leaders of both Arabs and Jews renewed their pleas to members of the two religious bodies to refrain from further acts of violence.

TRUMAN APPOINTS TAYLOR TO STUDY EUROPE'S PLIGHT

(Continued from Page One)

Vatican will confer first with Pope Pius in Rome. He left New York late yesterday on his new mission.

After his talks with the Pope, Taylor is scheduled to confer with leaders of European countries pledged to cooperate with the United States in achieving a lasting peace.

No announcement was made of Taylor's itinerary, but he is expected to include talks with British Prime Minister Attlee and French Premier Ramadier on his schedule.

Taylor's mission was revealed shortly before Secretary of State Marshall warned that continued starvation and food shortages in the world may endanger the survival of democratic governments in many lands.

In a radio address, recorded before his departure for the Rio de Janeiro conference on hemispheric defense, Marshall said the United States must do everything possible to alleviate hunger in the world.

Marshall declared:

"A hungry man... is compelled to devote all of his attention to securing the next meal for himself and his family by fair means or foul. He will not resist, and indeed will often welcome, any system which he is told will relieve his desperate condition."

session of the 20-nation conference, marked a change for the treaty draft proposal.

An earlier draft opposed a compulsory vote in the implementation of defense measures.

Must Be In Accord

Marshall emphasized, however, that no nation will be required to furnish arms or men to fight an aggressor against its will.

He declared that the United States is "anxious in every possible way to formulate a treaty with a maximum effectiveness, and has been encouraged by results to review its position regarding obligatory decisions."

Marshall declared that the shift in position will not affect the military assistance program which Congress will be asked to approve at the next session.

Fourteen states previously had indicated that they would approve the obligation for treaty nations to support collective measures agreed on in consultation.

The United States until now had deviated from such a stand.

PENNSYLVANIA WEEK, TO STRESS STATE'S ADVANTAGES

(Continued from Page One)

have a stake in this state? The job you hold, the pay-check you draw, the income of your business, all depend on the prolonged prosperity of this state—and the prosperity of the commonwealth depends on more people coming to live in it, and buying Pennsylvania-made products. It's just good common sense for all of us to be loyal Pennsylvania boosters.

Outstanding State:

Pennsylvania is a great state—greater, perhaps than you know. We possess more power and skilled workmen than any other state. We have more churches, more farms than England and Wales combined, and some of the best hunting fishing areas in the U. S.

The state is a mecca for tourists and a headquarters for historians for much of our American history was made here.

Join the Pennsylvania movement. Do what you can to attract new industries here. Urge desirable people to move here. Know your state and boost it.

In the past several days J. Kennedy Spafford of the Pennsylvania Department of Commerce has been in New Castle conferring with a number of citizens. He explained the mechanics of the program of Pennsylvania Week and in a short time a local committee will be appointed to take charge of the program in New Castle and Lawrence County.

conference of the interested members of the British commonwealth to be held on August 26.

2. Tardiness and reluctance of the Soviet Union to proceed with the conference on terms proposed by the United States.

The August 19 date was abandoned almost as soon as the conference was broached because of British demands for a delay. London held that it could not have its experts in the U. S. on that date and also get them to the Canberra meeting.

The same objection persists against an early September meeting. The British commonwealth countries maintain that any such schedule would reduce the Canberra meeting to no more than a week, which they consider too brief.

UNVEIL HONOR ROLL AT WEST PITTSBURGH

(Continued from Page One)

Papa, marshal, halted the marchers, and the men in the ranks faced the honor roll, with the Boy Scouts who had followed, immediately to their right.

The honor roll was blessed by Rev. Fr. Charles D. Beck, pastor of the Holy Cross church, after it had been unveiled by Peter Vessella, John Papa, and Anthony Alleghro, of the West Pittsburgh Boy Scout Troop.

James Vessella, general chairman of the welcome home celebration, presented a deed to the honor roll, which has been completely paid for, to Capt. Kenneth Freed, who accepted in behalf of the veterans of the community.

This was followed by the beautiful rose ceremony, a rose being placed in a white cross, erected in front of the honor roll, by men from the community, the ceremony being conducted by Capt. Vincent G. Wadlinger. As each rose was placed, the man presenting the rose saluted, and a candle was extinguished in his honor.

Those who made the supreme sacrifice and who were honored with this ceremony, were John Drake, Lougen DeMar, Harold Chambers, Sam Kozel, John Martin, Raymond Vermino, Daniel DeGenova, Sam Caravella, Joseph Cifone, Nick Moran, and David Ponziani, eleven in all. In conclusion plans were played by the scout troop bugler.

Judge Lamoree

Judge John G. Lamoree, was then introduced by Chairman James Vessella. Judge Lamoree giving the dedicatory address, in which he paid high tribute to the courage and devotion of those men from Taylor township, who so nobly answered their country's call, and who served through all the rigors of the great conflict.

He paid particular homage to those men who had made the supreme sacrifice and urged the audience to ever remember their courage and devotion, above and beyond the call of duty.

He also expressed the great appreciation of all of Lawrence county for the patriotic services rendered by the men and women of the community during the war, and of their devotion to all the war causes, which was probably the most outstanding of any community of its size in the state of Pennsylvania.

In concluding, he dedicated the memorial, first to those who gave their last full measure of devotion to carry on in its traditional American way, and secondly, to those who survived after going through the hell of battle on land and sea. He urged his hearers to never forget the sacrifices that they had made for this great nation.

At 5 p. m., a full course dinner is to be served to the returned veterans, followed by a band concert from 6 to 10 p. m., concluding with a fireworks display at 10:30 o'clock.

FINISH FIRST WEEK OF GUARD TRAINING

Edward Martin, former division commander whose military record goes back to the Philippine insurrection, and Weber.

Stricker announced today that the 28th Quartermaster company in Altona was the first Guard unit in the nation to have recruited its full authorized enlisted strength. No other unit in the country had reported a similar accomplishment according to the National Guard bureau at Washington, he said.

"It should spur other units of the Pennsylvania National Guard in their recruiting efforts," Stricker asserted. "This is an outstanding example of what can be done to accomplish our stated mission by hard work."

GAS-OIL SHORTAGE PREDICTED IN 1947

(Continued from Page One)

entire domestic production for military use is expected to result in careful apportionment of products to commercial users.

Prospects of a further slash in civilian supplies mounted as the senate small business committee moved its inquiry of the midwest oil shortage into a study of whether major companies are shutting off crude oil supplies to small refiners.

A committee spokesman said that preliminary inquiries indicate that refineries of major oil companies are in full operation while small operators are down to 60 to 75 per cent of capacity because of inability to get crude oil.

Sen. Wherry (R.) Neb., committee chairman, revealed that his group sent out the questionnaires preliminary to the opening of a subcommittee hearing in Chicago next Thursday on the oil situation.

He said that "hundreds" of small refiners, independent distributors and retail dealers have complained that a "squeeze" by big companies, which control crude oil supplies, is "forcing them out of business."

GLOBAL PROBLEMS VEX UNITED NATIONS COUNCIL CONCERNED

(Continued from Page One)

"riot act" read to them by E. N. Van Kleeffens in the council, accompanied by a declaration that his government would not consent to further intervention by the security council in Indonesia.

In rejecting the proposed commission to supervise the U. N. truce as proposed by Australia, Van Kleeffens said:

"We are all for a commission or an investigation, but we hold that the security council has not the right to establish one."

The Soviet Union and Poland, eager to promote the interests of the Indonesian republic, stand in direct contrast to their attitude in the Balkan question and both are supporting measures and steps which they are opposing bitterly in the Greek issue.

Belgium has given solid ground to the Netherlands claim by "reserving" her position on the question of council competence. The U. S. has stated that if there are doubts as to the council's competence, she will abstain from a subsequent veto.

Threat Of Rain And Vacations Cause Drop In Attendance At Last Evening's Event

Threat of rain, and the fact that many of the members are out of the city on vacation, cut into the attendance somewhat at the ninth annual reunion of the Thaddeus Stevens Alumni Association, which took place at Cascade Park, Friday evening.

However, this did not dampen the enthusiasm of those who were present, and splendid evening of good fellowship was enjoyed.

Following a picnic dinner in the grove, the old school kids repaired to the community house, where a program of entertainment was presented.

President Alan S. Chamberlain presided as master of ceremonies and read a number of letters of regret from those unable to be present.

Then came a fine program, which included choral numbers by the high school alumni choir, directed by Robert A. Duff, with some close harmony numbers by the male section of the choir.

In conclusion DeLace Cole entertained with some character sketches, which proved mirth provoking. The entertainment was presided over by Rev. Paul M. McGaffie, and had been arranged by T. Humphrey Richards.

Out-of-town members present included: John Spears, of Miami, Fla.; W. H. Wolford, of South Charleston, Va.; Olive Hammond Miller, of North Lima, O.; Mrs. J. A. Wright, of Vero Beach, Fla.; Harvey Johnston, of Lowellville, O.; and Irvin J. Perry, of Youngstown, Ohio.

FLYING DISCS SEEN IN 1731?

'Book Of The Damned' Reveals
Persons Of That Time Saw
Flying Objects

CHICAGO.—(INS)—Those flying discs are nothing new after all—or else people have been "seeing things" in just the same way since 1731.

Research in Chicago Newberry Library turned up a rare copy of the "Book of the Damned," by George Fort. The tome contains four accounts of persons who sighted flying objects similar to discs—ranging from the 18th through the 29th centuries.

Florentians Saw Cloud
On December 9, 1731, citizens of Florence, Italy reported a "luminous cloud moving at high velocity."

And then, Fort says, one M. Acharius from a town near Stockholm, Sweden, came up with a similar claim almost a century later. On May 16, 1803, Acharius said: "There appeared on the western horizon a number of round objects dark brown in color and seemingly the size of a hat crown. They passed overhead and disappeared on the eastern horizon."

Describes 'Illuminated Aeroplane'
A Warmier, England, resident described "a splendidly illuminated

aeroplane traveling at a tremendous rate" through the sky on March 6, 1912.

Even merchant mariners—not to be outdone by landlubbers—had a contribution to make. Fort describes the report of Capt. F. W. Munster of the barken Lady of the Lake, who on March 22, 1870 saw a cloud of circular formation which traveled against the wind... retained its shape... and was in view for half an hour."

Omaha Newspaper Plans New Plant Occupancy In '48

OMAHA, Neb.—(INS)—The new home of the Omaha World-Herald will be ready for occupancy early next year, according to the announcement made by Publisher Harry Dooly at the recent cornerstone laying.

Dooly traced the beginning of the newspaper from the "day in 1835 when the late Senator Gilbert H. Hitchcock founded it in a small cubby-hole," and introduced members of its veteran staff.

It worked 30 years or more. He said 18 employees have been working on the paper more than 30 years, 30 more than 25 years, 70 more than 20 years and 162 more than five years.

Other officials who participated in the cornerstone laying were: H. K. Newbranch, editor-in-chief; B. H. Cowdery, assistant publisher; W. E. Christensen, editor; and Frederick Ware, managing editor.

MOUNTAIN CLIMBER KILLED
BROOKLINE, Mass., Aug. 16.—(INS)—Mrs. Kathleen Noyes Pettit was notified Friday of the death of her son Emmitt, 23, Harvard University student, who fell in a mountain climbing accident.

His body was found in a rocky chasm near the top of Twin Peaks. Pettit had been missing from a climbing party since noon yesterday. His body was discovered by members of the party.

PAYMENTS TO VETERANS
HARRISBURG—Ramsey S. Black, state treasurer, announced that payments to returned Pennsylvania veterans under the service men's readjustment act during the week ended August 1, 1947, totaled \$1,685,549, paid in 84,213 checks.

Grill Soldier In Cafe Murder At Biloxi, Miss.

BILLOXI, Miss., Aug. 16.—(INS)—Police today began questioning an 18-year-old Columbus, O., soldier charged with murdering a Biloxi, Miss., cafe operator while a member of a blond strip tease dancer's robber gang.

Earlier, Mrs. Crabtree told police that she had acted as adviser to

She claimed she told them to abandon the idea, because it carried a federal charge and "the federal government is nothing to fool with."

Mrs. Crabtree admitted that she had given the pair sleeping pills at one time, but said nothing about using the pills to bolster their courage, as previously reported.

aeroplane traveling at a tremendous rate" through the sky on March 6, 1912.

Even merchant mariners—not to be outdone by landlubbers—had a contribution to make. Fort describes the report of Capt. F. W. Manner of the barque Lady of the Lake, who on March 22, 1870 saw a cloud of circular formation which traveled against the wind... retained its shape... and was in view for half an hour."

Grill Soldier In Cafe Murder At Biloxi, Miss.

BILLOXI, Miss., Aug. 16.—(INS)—Police today began questioning an 18-year-old Columbus, O., soldier charged with murdering a Biloxi, Miss., cafe operator while a member of a blond strip tease dancer's robber gang.

Detectives brought John Robert Tall from Columbus to Biloxi to face charges of having shot and killed Pete Rabito, operator of a roadside eating place.

The attractive dancer involved in the case is 29-year-old Mrs. Marjette Crabtree.

Earlier, Mrs. Crabtree told police that she had acted as adviser to

Tall and Noahson Webster on their crime careers, including one occasion when they were considering robbing a railway station.

She claimed she told them to abandon the idea, because it carried a federal charge and "the federal government is nothing to fool with."

Mrs. Crabtree admitted that she had given the pair sleeping pills at one time, but said nothing about using the pills "to bolster their courage," as previously reported.

"What Lack I Yet?" Announced As Sunday Outdoor Sermon Theme At Downtown Church

MARY ABRAHAM EVENING SOLOIST

Dr. G. S. Bennett, pastor of the First Christian church, the scene of the summer lawn series of services of the churches of the city and county, will be the speaker Sunday evening at the eighth lawn service of the current season, it is announced.

Record Crowd Of Relatives Of Local War Heroes Attends Meeting In Court House

CLARK EXPLAINS STEPS NECESSARY

With a record crowd of relatives of Lawrence county's war dead present, Thursday evening's meeting in Court Room One, at the Lawrence County Court House, proved most informative to those interested in bringing back their loved ones from the far off battle fields where they now rest.

A. Lewis Conn, director of veterans affairs for Lawrence county, presided and introduced the speaker, Samuel Clark, of the Quartermaster department of the U. S. Army, located at Philadelphia.

He explained all the steps necessary in bringing back these heroes and showed pictures of various cemeteries where these men now rest, and where their graves are well cared for, even though buried in distant places.

So interested were those present, that many of them remained for almost an hour after the meeting had ended to ask personal questions about their next of kin.

In addition to the relatives of the war dead, representatives of the various veterans and service organizations were also in attendance.

The invocation and benediction was given by Rev. A. E. Simon, pastor of St. John's Lutheran church.

The Duffle Bag campaign is under the auspices of the Lawrence County Sabbath School Assn., and these Duffle Bags are forwarded by prepaid Parcel Post to the Receiving Center in Maryland.

As soon as the Duffle Bags are received at the Service Center, they are weighed and a card is sent to the donor giving the exact weight and states as follows: "We wish to thank you for this contribution toward the relief of suffering people. The contents will be given our cleaning, renovating and repairing which is part of our processing procedure. All goods are desperately needed overseas."

Lawrence County Sunday Schools, Adult classes and individual members may put in order for one or more of these Duffle Bags by sending \$31. County Sunday School Headquarters, L. S. & T. Bldg., New Castle, Pa.

that turned down the lights in their wake so that they could see the people looking at them outside.

They quickly came to life, climbed up to the ceiling of their cage and hid all the funny tricks that have amused 2,500 audiences ever since the first animal was put in a Zoo.

Can't you imagine all the time and effort it took to invent this mirror that made human beings invisible to monkeys?

And the patience it must have taken Mr. Martin Perkins, director of the Chicago Zoo, to teach the monkeys to press the button that opened the switch that turned on the light and made their animal world to them?

One again Science has accomplished a wonderful feat!

And what is that wonderful thing Science has discovered by means of the mirror and the button and the switch?

Something that almost anyone who has ever watched human beings has already known for a long, long time—that one of the outstanding characteristics of almost every one of the more highly developed animals is the desire to show off.

New phone don't feel insulted if I call human beings among "the more highly developed animals."

To avoid all chance of offense, I shall take myself as an example. I sit in my upstairs den, in my slippers, a pair of old pants, a rather soiled sports shirt and no necktie.

Through a mirror I can look down the driveway. A car approaches. It's company. What do I do? Like a monkey I come to life. I comb my hair. I change to a clean shirt and put on a tie, a gay sports coat and a pair of tan shoes.

I come downstairs with a pleasant smile and do all my best parlor tricks.

In speaking to my wife I call her "Darling" and she calls me "Dear." And when the company leaves they say "What lovely people the Browns are—so gay, so animated, so happy!"

Just think of all the bother the scientists who discovered that mirror could have saved themselves by just reading this column.

show that the race has been close during the past year and a half. But the plain, unvarnished fact is that almost no one of whatever political party or whatever economic group, is guiltless in connection with the price spiral. The unorganized, the old who live on pensions or small savings, have had least to do with it and they have suffered most.

There are very real limits on what Clark can actually do. He talks about invoking the anti-trust laws against those guilty of collusion in price rises, curtailment of output or restriction of capacity expansion.

Large Order

That is a large order. It must be measured against the fact that successful anti-trust prosecution can occur only in a climate of opinion sympathetic to it. As head of the anti-trust division of the Justice department, Thurman Arnold considered it one of his duties to create a favorable climate. He was able to dramatize the issue of monopoly, whether in industry or in labor, versus competition. In the years since he left the Department of Justice, opinion has shifted. No one with the same force and zeal has come along to show what the stakes are.

So long as we can have competition, we are not too badly off. The question, as has been pointed out often in this space, is how much competition is left in our country.

We will get plenty of political speeches about high prices between now and November 1948. It looks as though inflation might be the chief political football next year, but the speeches will have little effect on what you and I pay for a loaf of bread.

Recent evidence to convict the defendants.

The task will be to show definite evidence of premeditation. On this score there are the following facts:

1—The Faben bomb did not discover TNT, and instead of releasing its use to potential purposes in motion, it caused a chain reaction of dynamite that reached its apex in the 12-ton bombs of the Second World War.

2—Directors of the organization, by their own admissions and in records readily available to the prosecution, contributed largely to Adolf Hitler's Nazi party in the early days when only such contributions were given the name "day of the leader" on his behalf for war and conquest.

3—The three combine made extensive and planned use of slave labor, espionage, blackmail and bribery.

4—It contravened countless international regulations against cartels, subsidized foreign organizations and industries and made huge, armament, weapons in manufacture of poison gas and other illegal instruments of warfare.

The trial will show whether these are punishable crimes.

It also will demonstrate the extent to which German thoroughness harnessed its greatest field of productivity to the vanished character of Hitler's cataclysmic ambitions.

"Wanna grow a prize tomato?" asked the seed dealer.

"Sure," said Mr. Brown. "Only trouble is, I wouldn't know how to go about it."

"Well, your plants are beginning to grow by now," said the seed dealer, "and I bet you haven't even got any poles to hold 'em up."

"As a matter of fact, I haven't," said Mr. Brown. "I'll get some."

"And here's a good trick," said the seed dealer. "To make the fruit grow larger, keep pinching off the side shoots as they appear."

"I'll have to live in my garden patch to do that," said Mr. Brown.

"Now be serious, Mr. Brown," warned the seed dealer, "because here's my main pearl of wisdom. Your plants need plenty of water in the summer, so when the soil looks dry, give it a good soaking with your garden hose. That way you'll have a fine, juicy crop of tomatoes."

So, Mr. Brown stopped wisecracking and went to work, and there he is above, sporting his prize tomato.

Living Cost Boost Termed Non-Political

Proximity Of Municipal
Elections Has No Bear-
ing On Increase, Says
Duff

OTHER NEWS OF STATE AFFAIRS

HARRISBURG, Aug. 16.—(INS)—The average 10 per cent cost-of-living increase stated by Governor Duff to become effective around September 1 has no particular political significance. The governor said more than seven months ago that Pennsylvania's more than 40,000 state employees were entitled to more money. While the proximity of municipal elections in November was apparent, it was only coincidental. The new minimum state wage for salaried workers will be in the neighborhood of \$1623 a year, \$1476 is the present minimum. During the Eadle administration the minimum wage was \$899.

Like private industry, the state has a difficult time getting certain types of skilled workers to sign on the commonwealth payroll. Low salaries are not commensurate with the training demanded by the commonwealth. Over the years, the legislative porkbarrel has yielded juicy political plums for party work horses who give comparatively little of their time to the state, ex-

cept, in some cases, when the General Assembly is in session. But the office-holders to "little fellow" the worker who earns less than \$2000 a year, carried the burden of the commonwealth's operation.

Some state capital employees, swindlers in the heavy August heat, claim membership in a nebulous club called "Teetifits". The strange name stands for "Thank goodness it's Friday", a remark frequently uttered by weary workers looking forward to week-ends.

State Secretary of Commerce Oras J. Matthews is one cabinet member who has ignored the baseless but old tradition that awnings should not mar the state capitol's facade. He had the department of property and supplies put up some green awnings to blot out the hot rays from the sun which invade his office each afternoon.

Reports that Philadelphia Republicans are seeking the ouster of State Secretary of Labor and Industry William H. Chesney pointed out the belief that the demand stemmed from office of one of the republicans to move up a notch. Chesney's deputies are Frank Boal of New Brighton, secretary to former U. S. Sen. James J. Davis, and Davis Williams of Philadelphia, a minor AFL official.

Non-partisan opinion indicates that House Speaker Franklin H. Lichtenwalter will be elected to congress from the eighth (Bucks-Lehigh) district despite the opposition of state CIO and AFL unions. The 36-year-old Republican, who will resign the speakership if elected, will go into the campaign with a GOP registration plurality of more than 20,000.

SCOTT'S SCRAP BOOK

By R. J. SCOTT

Around Hollywood

By JOHN TODD

International News Service Staff Correspondent

HOLLYWOOD, Aug. 16.—Holly-wood must suddenly be becoming slightly prudish. A few days back M-G-M had photographers take a series of pictures of Marie Windsor, the shapely from Utah, in a bathing suit.

Now an executive has ordered the whole group killed. He decided, we hear, they looked too Jane Russellish.

There's been a lot of talk about M-G-M making a sequel to its academy award winning "Mrs. Miniver" with Greer Garson and Walter Pidgeon.

Need Great Story
Here is the lowdown, Louis B. Mayer, the production boss, talked to Walter about it the other day. This, in effect, is what he told him: "There is only one circumstance under which we can make such a sequel."

We must have a great story. It cannot be merely a good story. It is only a good story people might

criticize us. They might say that we had no provocation for it. "If we can't get a great story, there'll be no sequel."

Douglas Hard at Work
Right now Melvyn Douglas is very busy working in Paramount's "My Own True Love", but he has a big ambition.

"I'd like to go to Paris to make a picture," he said. "It can't be done overnight, because there are a lot of arrangements which must be made."

Now that the British tax plan has taken a monumental bite out of Hollywood profits, everybody's wondering whether there'll be any change in Walter Wagner's production plans for "Joan of Arc" in which Ingrid Bergman is to star.

Berry Europe Bound
Your reporter has heard that the original budget was set at \$6,000,000, which is \$200,000 more than David O. Selznick spent on "Duel in the Sun".

Wallace Berry sails for England Aug. 27 on the Queen Mary to visit London, France, Italy and Switzerland and he's decided to wind up the trip by entertaining occupation troops in Germany. Fay Holden said her husband, now in Berlin, for the Queen Elizabeth and she'll return on the same ship.

MORE CHICKS HATCHED
HARRISBURG — Despite high feed costs, steady demand for poultry meat, has prompted broiler producers to increase orders for cockerel chicks of the heavier or meat-producing breeds, resulting in 35 per cent more baby chicks being hatched this June in Pennsylvania than in June a year ago, the state department of agriculture announced today. In a federal-state hatchery production survey it was learned that production of chicks last June totaled 5,600,000 against 4,150,000 for June 1946.

Up to this time no internationalist has come forward with the suggestion that we commemorate the anniversary of the signing of the Yalta agreement.

Sodium Compound May Reduce Decay

COLUMBUS, O.—(INS)— A 40 per cent reduction in tooth decay has been obtained by use of sodium fluoride in an experiment conducted in Miami county.

In a preliminary report, Dr. H. M. Millhoff, state dental hygiene chief, said recently, the study has been going on for a year and a half. He said that 5,000 school children between the ages of six and ten were used as subjects for the tests.

Dr. Millhoff stated that a two per cent solution of the chemical was applied to the children's teeth and each received a minimum of two and maximum of six applications. He stated that best results were obtained by giving four treatments at intervals of four to six weeks.

JOBLESS PAYMENTS

HARRISBURG— Ramsey S. Black, state treasurer, announced that unemployment compensation benefits payments to jobless Pennsylvania workers during the week ended August 1, 1947 totaled \$1,454,578.58 paid in 86,439 checks.

FIVE CANDIDATES of Middletown, O.: Joseph J. Malloy of Washington, D. C., and Bascom F. Jones of Nashville, Tenn.

More than a million legionnaires are expected to attend.

Living Cost
Boost Termed
Non-PoliticalProximity Of Municipal
Elections Has No Bear-
ing On Increase, Says
DuffOTHER NEWS OF
STATE AFFAIRS

HARRISBURG, Aug. 16.—(INS)—The average 10 per cent cost-of-living increases stated by Governor Duff to become effective around September 1 have no particular political significance. The governor said more than seven months ago that Pennsylvania's more than 40,000 state employees were entitled to more money. While the proximity of municipal elections in November was apparent, it was only coincidental. The new minimum state wage for salaried workers will be in the neighborhood of \$1623 a year, \$1476 is the present minimum. During the Earle administration the minimum wage was \$960.

Like private industry, the state has a difficult time getting certain types of skilled workers to sign on the commonwealth payroll. Low salaries are not commensurate with the training demanded by the commonwealth. Over the years, the legislative porkbarrel has yielded juicy political plums for party workers who give comparatively little of their time to the state, ex-

cept, in some cases, when the General Assembly is in session. But the oft-referred to "little fellow," the worker who earns less than \$2000 a year, carried the burden of the commonwealth's operation.

Some state capitol employees, sweating in the heavy August heat, claim membership in a nebulous club called "Teegiffs." The strange name stands for "thank goodness it's Friday," a remark frequently uttered by weary worker looking forward to week-ends.

State Secretary of Commerce Orus J. Matthews is one cabinet member who has ignored the baseless but old tradition that awnings should not mar the state capitol's facade. He had the department of property and supplies put up some green awnings to blot out the hot rays from the sun which invade his office each afternoon.

Reports that Philadelphia Republicans are seeking the ouster of State Secretary of Labor and Industry William H. Chesnut pointed up the belief that the discord stemmed from office of one of the deputies anxious to move up a notch. Chesnut's deputies are Frank Boal of New Brighton, secretary to former U. S. Sen. James J. Davis, and Davis Williams of Philadelphia, a minor AFL official.

Non-partisan opinion indicates that House Speaker Franklin H. Lichtenwalter will be elected to congress from the eighth (Bucks-Lehigh) district despite the opposition of state CIO and AFL unions. The 36-year-old Republican, who will resign the speakership if elected, will go into the campaign with a GOP registration plurality of more than 20,000.

Torrid Weather Hits Milk Output

H. N. Cobb, chairman of the State Milk Control Commission, said specific figures were unavailable. "An extended heat wave has had a reduction in milk output," he added. "We have had reports from western Pennsylvania that certain cows have refused to milk because of the heat. Even when milk and cooler water arrive, it may take some time to recover."

Cobb explained that "cows are just like humans—when it's hot they just don't eat as much." Dry cows are also out of milk supply, he said.

Donald M. Cresswell, chief of crop reporting for the Department of Agriculture, disclosed that the heat wave had not affected farm production.

Greek Guerrilla Chief Proclaims 'A Free Greece'

ATHENS, Aug. 16.—(INS)—Gen. Markos, generalissimo of Greek Guerrillas, proclaimed today a "free Greece" in the "liberated areas" of the strife-torn country.

He declared that "All the powers derive from the people, for the people, and are exercised through the people."

The bacon and eggs this morning, the clothes you are wearing, the newspaper you are reading, the garden tools you use—all of them were hauled at some time or other by motor truck.

Perhaps it was the raw materials, perhaps it was the finished product, perhaps it was the delivery to your home but at some time, and probably many times, almost everything you own was hauled by motor truck.

Rent Control Extension Seen

By FRANK R. ALLIN
(U. S. Staff Correspondent)

WASHINGTON, Aug. 15.—Sen. Ruck (R., Del.) today predicted that Congress again will extend rent control.

He also forecast a "buyers' strike" on newly-built houses because of soaring prices.

Ruck said he did not believe there will be any further raising of rent ceilings beyond the 15 per cent permitted now under leases, in the extension of controls which he predicted.

The Delaware Republican is chairman of the Senate Banking committee housing and rent subcommittee, which drafted the present rent control extension, and which handles housing legislation.

Ruck declared:

"I believe that if conditions do not change—if we don't get more housing built—we will have to extend rent controls again."

Ruck said nothing at present trends to ease the situation. Instead, he declared that buyers are rebelling at new house prices.

And that, at least in some areas, they are "moving" more slowly. He said:

"Buyers will not continue to pay the price for houses built under present costs. There will be a buyers' strike until costs are reduced."

The Senate housing affairs leader predicted that "prices cannot go back to 1940, but they must come down some."

Union Official Sees Isthmian Strike Spreading

BALTIMORE, Aug. 15.—(INS)—An AFL seamen's union official declared today that the present strike against the Isthmian line soon may extend to a dozen other companies, paralyzing shipping on both coasts.

William Renta, Baltimore port agent for the Seafarers International union, made the declaration at a rally of striking shipyard workers.

Renta pointed out that Isthmian line sailors have been on strike since Tuesday because of failure to reach a contract agreement with the company after the AFL union defeated the CIO in a bargaining agency election.

The union leader declared that contracts with a dozen other seamen companies have expired and have not been renewed. He said national officers of the union now are engaged in deciding whether to extend the Isthmian strike to those companies.

Cop Hospitalized After Gun Battles Kill 3, Wound 1

LANCASTER, S. C., Aug. 15.—(INS)—A Waxhaw, N. C., police officer was under guard in a Lancaster, S. C., hospital today at the end of a two-state shooting spree in which three men were killed and one other seriously wounded.

The officer, James Patterson, was reported in critical condition from leg and shoulder wounds suffered in a gun battle with Lancaster police Thursday night.

Lancaster Police Chief H. A. Montgomery said the trouble started late Thursday afternoon when Patterson met two Negroes. One of whom he had wounded while making an arrest last May, on a Waxhaw street. Patterson shot and killed the two.

Montgomery said Patterson claimed the Negroes threatened him and that he killed them in self-defense.

The Lancaster police chief said that following the slayings Patterson armed himself with a shotgun in addition to his revolver and fled south across the Carolina border.

Montgomery said the Waxhaw officer was met by Sheriff Deputy Oscar Adams and Constable Coleman McKee near Lancaster. Patterson opened fire when they challenged him.

Adams was killed instantly and McKee was seriously wounded in the exchange of shots. The wounded deputy managed to hit Patterson twice, however.

Plan Big Rally Of Bible Classes

Men's Bible Classes To Gather In First Presbyterian Church Aug. 24

In the neighborhood of 500 men, belonging to the various Men's Bible classes of the city are expected to assemble in the First Presbyterian church, on Sunday morning, August 24, at 9:30 o'clock, for a rally of these classes. They will be taught by Attorney Robert M. White, teacher of the McKinney Bible Class of the First Presbyterian church.

The rally is being sponsored by the men's classes of the First Congregational church and the McKinney Bible class, of the First Presbyterian church, which resulted from a splendid gathering of the two classes during July.

On July 13, the men of the Presbyterian men's class visited the Congregational church, and the visit was returned by the Congregational church men on July 27. It produced a fine spirit of fellowship between them, which led to the two classes projecting the big inter-church rally planned for a week from Sunday.

Men from the two classes will pay a visit to all men's classes tomorrow to issue an invitation to join in the rally, which is expected to promote good fellowship between the Sabbath school men of the city.

Six Injured As PRR Trains Hit At Columbus, O.

COLUMBUS, O., Aug. 15.—(INS)—The main line tracks into Columbus Union depot were cleared today following a sideswiping crash of two crack Pennsylvania passenger trains last night in which six persons were injured.

Only one of the six was hurt seriously enough to be hospitalized. He was George J. Fabrick, 45, a Pittsburgh, Pa., policeman who was taken to Grant hospital with possible back and internal injuries.

Police reported that the crash St. Louis-to-New York "American" was struck by the Cincinnati limited in a driving rain at the west entrance to the station.

A pitman and a coach of the American were detailed, one of the coach's front tilted at a 30 degree angle.

Engineer Marcus Klug of the Cincinnati limited said he was roasting into the station at about five miles an hour after receiving "restrictive" signal at the waiting bridge. His vision was impaired, he stated, by the overhead treet which crosses the station.

Klug said he was not aware the American was on the adjoining track until it was too late to avert a crash.

Rent Control Extension Seen

By FRANK B. ALLEN
(U.S. Staff Correspondent)

WASHINGTON, Aug. 16.—Sen. Buck (R), Del., Friday predicted that Congress again will extend rent control.

He also forecast a "buyers' strike" on newly-built houses because of soaring prices.

Buck said he did not believe there will be any further raising of rent ceilings, beyond the 15 per cent permitted now under leases, in the extension of controls which he predicted.

The Delaware Republican is chairman of the Senate Banking committee's housing and rent subcommittee, which drafted the present rent control extension, and which handles housing legislation.

Buck declared: "I believe that if conditions do not change—if we don't get more housing built—we will have to extend rent controls again."

Buck saw nothing in present trends to ease the situation. Instead, he declared that buyers are rebelling at new house prices.

And that, at least in some areas, they are "moving" more slowly. He said:

"Buyers will not continue to pay the prices for houses built under present costs. There will be a buyers' strike until costs are reduced."

The Senate housing affairs leader predicted that "prices cannot go back to 1940, but they must come down some."

Union Official Sees Isthmian Strike Spreading

BALTIMORE, Aug. 16.—(INS)—An AFL seamen's union official declared today that the present strike against the Isthmian line soon may extend to a dozen other companies, paralyzing shipping on both coasts.

William Rentz, Baltimore port agent for the Seafarers International union, made the assertion at a rally of striking shipyard workers.

Rentz pointed out that Isthmian line sailors have been on strike since Tuesday because of failure to reach a contract agreement with the company after the AFL union defeated the CIO in a bargaining agency election.

The union leader declared that contracts with a dozen other steamship companies have expired and have not been renewed. He said national officers of the union now are engaged in deciding whether to extend the Isthmian strike to those companies.

Field Artillery Battalion To Be Honored For Gallantry In Ardennes Battle

New Castle's 229th Field Artillery Battalion, now on maneuvers at Indiantown Gap in the annual PNG training, will be honored Sunday when its members receive a unit citation for gallantry during the battle of the Ardennes in 1944.

Text of the citation (abridged) reads as follows:

The 112th Infantry Regimental Combat Team, consisting of the 112th Infantry Regiment with the 229th Field Artillery Battalion, Company C, 103rd Engineer Battalion, Battery C, 447th Antiaircraft Artillery Battalion, and Company C, 630th Tank Destroyer Battalion attached, is cited for extraordinary heroism, efficiency, and achievement in action against the enemy during the Battle of the Ardennes from 16 to 24 December 1944.

On 16 December 1944 the 112th Infantry Regimental Combat Team from Lutz Kampen, Germany, to Lell, Luxembourg, was holding six and one-half miles of the front line sector assigned to the 28th Infantry Division. During the period 16 to 18 December 1944, despite repeated enemy infantry and tank attacks involving the elements of nine enemy divisions, the 112th Infantry Regimental Combat Team held its ground.

All elements of the 112th Infantry Regimental Combat Team were involved in this action. The 229th Field Artillery Battalion was engaged in direct fire on the enemy at a range of 150 yards. The Cannon Company of the 112th Infantry Regiment and Company C, 630th Tank Destroyer Battalion, direct fire, succeeded in disabling 18 enemy tanks. Company C, 103rd Engineer Battalion together with the 2nd Battalion, 112 Infantry Regiment, repeatedly counter-attacked enemy penetrations. The Headquarters, Headquarters Company, and Service Company manned the lines and drove off by fire a number of groups of the enemy which had infiltrated into the rear areas.

On the night of 17-18 December 1944, under orders from higher headquarters, the 112th Infantry Regimental Combat Team was withdrawn to the high ground west of the Our River.

On the night of the 23-24 December 1944 the action of the 112th Infantry Regimental Combat Team was especially notable. Being ordered by higher headquarters to act as a covering force for units withdrawing to the American lines, it held its position under furious enemy infantry and tank attacks until the Regimental Headquarters and 1st Battalion, 112th Infantry were surrounded.

The 1st Battalion then fought its way clear to friendly lines bringing with it a number of vehicles and personnel of other units. The gallantry under extremely hazardous and physically trying conditions, the stubborn defense of the sectors assigned, and the heroic conduct of all personnel of the 112th Infantry Regimental Combat Team, in 9 days of continuous fighting, exemplify the highest traditions of the armed forces of the United States.

Cop Hospitalized After Gun Battles Kill 3, Wound 1

LANCASTER, S. C., Aug. 16.—(INS)—A Waxhaw, N. C., police officer was under guard in a Lancaster, S. C., hospital today at the end of a two-state shooting spree in which three men were killed and one other seriously wounded.

The officer, James Patterson, was reported in critical condition from leg and shoulder wounds suffered in a gun battle with Lancaster police Thursday night.

Lancaster Police Chief H. A. Montgomery said the trouble started late Thursday afternoon when Patterson met two Negroes. One of whom he had wounded while making an arrest last May, on a Waxhaw street. Patterson shot and killed the two.

Montgomery said Patterson claimed the Negroes threatened him and that he killed them in self-defense.

The Lancaster police chief said that following the slayings Patterson armed himself with a shotgun in addition to his revolver and fled south across the Carolina border.

Montgomery said the Waxhaw officer was met by Sheriff's Deputy Oscar Adams and Constable Coleman McAtter near Lancaster. Patterson opened fire when they challenged him.

McAtter was killed instantly and Adams was seriously wounded in the exchange of shots. The wounded deputy managed to hit Patterson twice, however.

Plan Big Rally Of Bible Classes

Men's Bible Classes To Gather In First Presbyterian Church Aug. 24

In the neighborhood of 500 men, belonging to the various Men's Bible classes of the city are expected to assemble in the First Presbyterian church, on Sunday morning, August 24, at 9:30 o'clock, for a rally of these classes. They will be taught by Attorney Robert M. White, teacher of the McKinley Bible Class of the First Presbyterian church.

The rally is being sponsored by the men's classes of the First Presbyterian church and the McKinley Bible class, of the First Presbyterian church, which resulted from a splendid gathering of the two classes during July.

On July 13, the men of the Presbyterian men's class visited the Congregational church, and the visit was returned by the Congregational church men on July 27. It promoted a fine spirit of fellowship between them, which led to the two classes projecting the big inter-church rally planned for a week from Sunday.

Men from the two classes will pay a visit to all men's classes tomorrow to issue an invitation to join in the rally, which is expected to promote good fellowship between the Sabbath school men of the city.

Missing Woman Mystery Baffles Chicago Police

CHICAGO, Aug. 16.—(INS)—Chicago police today attempted to unravel the confusion surrounding Mrs. Rose Jacobs, 62, of Wheeling, W. Va., who has been missing since she changed trains in Chicago Sunday.

The woman's son, a Wheeling doctor, telephoned police that a call from Albuquerque, N. M., reported his mother was an amnesia victim in a Chicago hospital. Police said no such case had been reported.

Another son, Emil Jacobs, of Beloit, O., reported that he last heard from his mother when she called him Sunday night and said she would go straight to Springfield, O., rather than remain overnight in Chicago.

Mrs. Jacobs had been visiting a friend in Albuquerque who later revealed she had telephoned Wheeling concerning the alleged hospital admission of the aged woman.

Two busses collided head-on at nearby Washington bridge early this morning sending 18 persons to the Franklin hospital for treatment. Fourteen of them were discharged after treatment for minor injuries. None of the other four were in serious condition. They were: Louis Conti, 36, Bernard Aaron, 61, of Wheeling; Mrs. Robert Fierston, 34, of Steubenville; and F. E. Porter, 78, of Alexandria, La.

BIDS LORD MAYOR

PITTSBURGH, Aug. 16.—(INS)—Hotel chefs were checking their stocks of kippers and scones today after it was revealed in Pittsburgh that Mayor David L. Lawrence cabled the Lord Mayor of London an invitation to attend the American premier of "Unconquered" October 2.

Six Injured As PRR Trains Hit At Columbus, O.

COLUMBUS, O., Aug. 16.—(INS)—The main line tracks into Columbus Union depot were cleared today following a sideswiping crash of two crack Pennsylvania passenger trains last night in which six persons were injured.

Only one of the six was hurt seriously enough to be hospitalized. He was George J. Fabrick, 45, a Pittsburgh, Pa., policeman who was taken to Grant hospital with possible back and internal injuries. Police reported that the crack St. Louis-to-New York "American" was struck by the Cincinnati limited in a driving rain at the west entrance to the station.

A pullman and a coach of the American were derailed, one of the cars being tilted at a 30 degree angle.

Engineer Marcus Klug of the Cincinnati limited said he was coasting into the station at about five miles an hour after receiving "restrictive" signal at the waiting bridge. His vision was impaired, he stated, by the overhead trolley which crosses the station.

Klug said he was not aware the American was on the adjoining track until it was too late to avert a crash.

Not the Size of the Job, But the Way It Is Done

Your trouble may be minor, some 'little thing out of working order on your car, but it is an annoyance. Or the job may be one requiring time and parts.

No matter the size of your difficulty, it should receive only the best of attention. Only expert mechanics should be permitted to repair it. A small job sloppily done may mean a larger job a little later on.

Small or large, minor or major, our mechanics give your car expert attention. That sort of work doesn't make for more repair jobs but it does make for satisfied customers.

OTHER NEWS OF COURT HOUSE HILL

Paul S. Bell entered a plea of guilt to a forgery charge before Judge John G. Lamoree Friday morning, and was sentenced to pay a fine of \$1 and costs, and sentenced to three months in the Allegheny County Workhouse.

Two others were sentenced by Judge Lamoree, Dominick Manzo getting the usual sentence on a drunken driving charge, namely \$100 and costs or thirty days in jail, the sentence to be commuted to three days on payment of the fine; and Frances McDevitt, charged with failure to stop and render assistance, who was fined \$50 and costs, or thirty days in jail, to be released in three days on payment of the fine.

ROWLAND FISHES IN CANADIAN WILDS

F. M. Rowland, court reporter, is now engaged in his favorite summer sport, namely that of fishing in Canada. Mr. Rowland has been a constant visitor to Canadian lakes and streams for the past 26 years. At present, he is interested in hooking a certain type of muskellunge, known only in distant Canadian waters, and hopes his present effort will be crowned with success.

Accompanied by Mrs. Rowland, and their son Fred, a Westminster College student, and veteran of the late war, they are now fishing the waters of Perault Lake, 350 miles northwest of Port William, Ont. It is their intention to also visit the shore of James Bay, where Mr. Rowland expects to continue his efforts to land a different variety of fish near the mouth of the Albany river.

Mr. Rowland is considered an outstanding authority on muskellunge fishing. Few people from this section penetrate the northern reaches of Canada to the extent to which he is accustomed.

BANISH HEAT WAVES WITH COOL CLOTHES

When it comes to cool looking clothes, collarless necklines and gored skirts get more votes than pleats, ruffles, and tucks. Such cool looking clothes also are easy to laundry.

Lightweight fabrics including both cotton and rayon are ideal for these cool looking dresses. Cotton goes everywhere and holds first place as a fabric for warm weather clothes. It is cool, washable, and can be counted upon to come out of the sud's looking fresh and clean.

Some rayons are washable but the woman who likes sheers will find that they usually are more satisfactory if dry cleaned instead of washed in soap and water.

Greens, blues, and grays help to carry out the idea of coolness. Dark colors with white accessories will stay fresh and clean looking for a day in town. A simplified hair do and make up contribute something to keeping cool on a hot day.
